Highly motivated Computer Engineering undergraduate and prospective engineer. **Proven team player** with strong problem-solving skills and a focus on responsibility and continuous learning. Aspiring to be a professional **Software Developer** and to specialize in **Artificial Intelligence and Data Science**

Professional Experience

Project Employee, Nurol Teknoloji ✎ 10/2025 – Present | Ankara
Contributed to R&D and technology development efforts by taking an active role in innovative project processes within the scope of Nurol Holding's open innovation platform, InnovatioN Together.

IT Candidate Engineer, Intecro Robotics 04/2025 – 10/2025 | Ankara
• Performed setup of PCs and peripheral devices, and identified and fixed hardware malfunctions.
• Conducted installation, configuration, maintenance, and update operations for Windows and Linux operating systems.
• Analyzed and resolved basic network issues, including network topology and IP configurations.
• Automated system imaging, backup, recovery, and various installation procedures.
• Managed user and group accounts, authorizations, and domain configurations within the Active Directory environment.

Front-end & DevOps Intern, Serebellum Bilişim Danışmanlık Şirketi ✎ 07/2024 – 08/2024 | Ankara
• Developed front-end applications with **React** and designed user-centric interfaces.
• Gained practical experience in Linux system administration and DevOps processes, performing automation and process improvements.

Vice President, Ankara University Artificial Intelligence and Image Processing Society (YAZGİT) ✎ 03/2023 – 08/2024 | Ankara
• Organized industry events, technical trips, and conferences, fostering interaction between students and industry professionals.
• Prepared and delivered educational programs in software development and artificial intelligence.
• Provided Python programming training to over 250 students within the society.
• Established and activated **yazgit.com** ✎ to increase knowledge sharing in the field of AI and programming.

Artificial Intelligence Trainer, T3 Foundation Deneyap Technology Workshops 10/2023 – 01/2024 | Ankara
• Conducted an 8-week artificial intelligence course for middle school students.
• Introduced fundamental AI concepts, algorithms, and practical applications during the course.
• Encouraged students to better grasp the subject and practice by working on AI projects.

Education

Computer Engineering, Ankara University 4/4 2022 – 2026 | Ankara
• Acquired comprehensive theoretical and practical knowledge in software development, algorithms, data structures, artificial intelligence, operating systems, and other engineering disciplines through extensive computer engineering education.
• Gained sector-specific experience through various projects and research.

Cemil Meriç Science High School (Fen Lisesi) 2016 – 2020 | Elazığ
GPA: 89/100 | National University Entrance Exam (YKS) Science Ranking: 16,134

Projeler & Başarılar

DigiEduHack 2024 Local Winner, 2024 Local Winner ✎ 11/2024
• Managed the **DigiCampus** project during the DigiEduHack 2024, an international education and technology hackathon organized by the European Union.
• Managed all phases of the project process from start to finish, including idea development, web development, content production, and team coordination.

Anku Game Jam, (2nd Place) ✎ 05/2024
• Acted as **Team Leader** and **Project Manager** in the competition where the team achieved 2nd place among 20 teams.
• Successfully completed game design, software, level design, and project management processes for the game named "Pink," which was developed within 48 hours.
Game Link: Pink ✎

Yetenekler

Technical Skills — Python, C, JavaScript, React, Spring Boot, MySQL, AWS, Git, Linux, Active Directory, Backup/Recovery • **Soft Skills** — Teamwork, Communication, Time Management, Leadership, Organization & Planning, Problem-Solving, Documentation, Analytical Thinking, Taking Initiative, Research Skills.

Certificates

Defense Industry 401 — Presidency of Defense Industries (UN_0414772571526477610) | **Counter-Intelligence Training** — Presidency of Defense Industries
